

Subject: Geography

Year: 7

Half -Term	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Themes/ Content/ Units covered 	Theme(s): Place, space and scale Unit: Becoming a geographer Establishing the skills and foundation knowledge required to study the challenging concepts and theories in KS3 Geography 	Theme(s): Environmental interaction Unit: Weather and Climate Developing a detailed understanding of the roles that weather and climate play on our lives 	Theme(s): Globalisation Unit: The Almighty Dollar Based on Dharshini Davids bestselling book, this unit follows the journey of a dollar around the World. At each stop, students examine an issue affecting each country. 	Theme(s): Physical processes Unit: Rivers Rivers play a major role in shaping our local and global lives. This unit explores how rivers shape the natural landscape and our lives. 	Theme(s): Cultural and demographic understanding Unit: Africa Often misrepresented, Africa is a continent of contrast. This unit introduces students to the diversity of the continent, with a particular focus on economic development and growth. 	Theme(s): Environmental interaction and sustainability Unit: Biomes Our planets large ecosystems are under threat from human activity. This unit allows students to study where these threats come from and the possible solutions to preserve these habitats.
